

JABAL AMMAN CLINICS

## JABAL AMMAN CLINICS

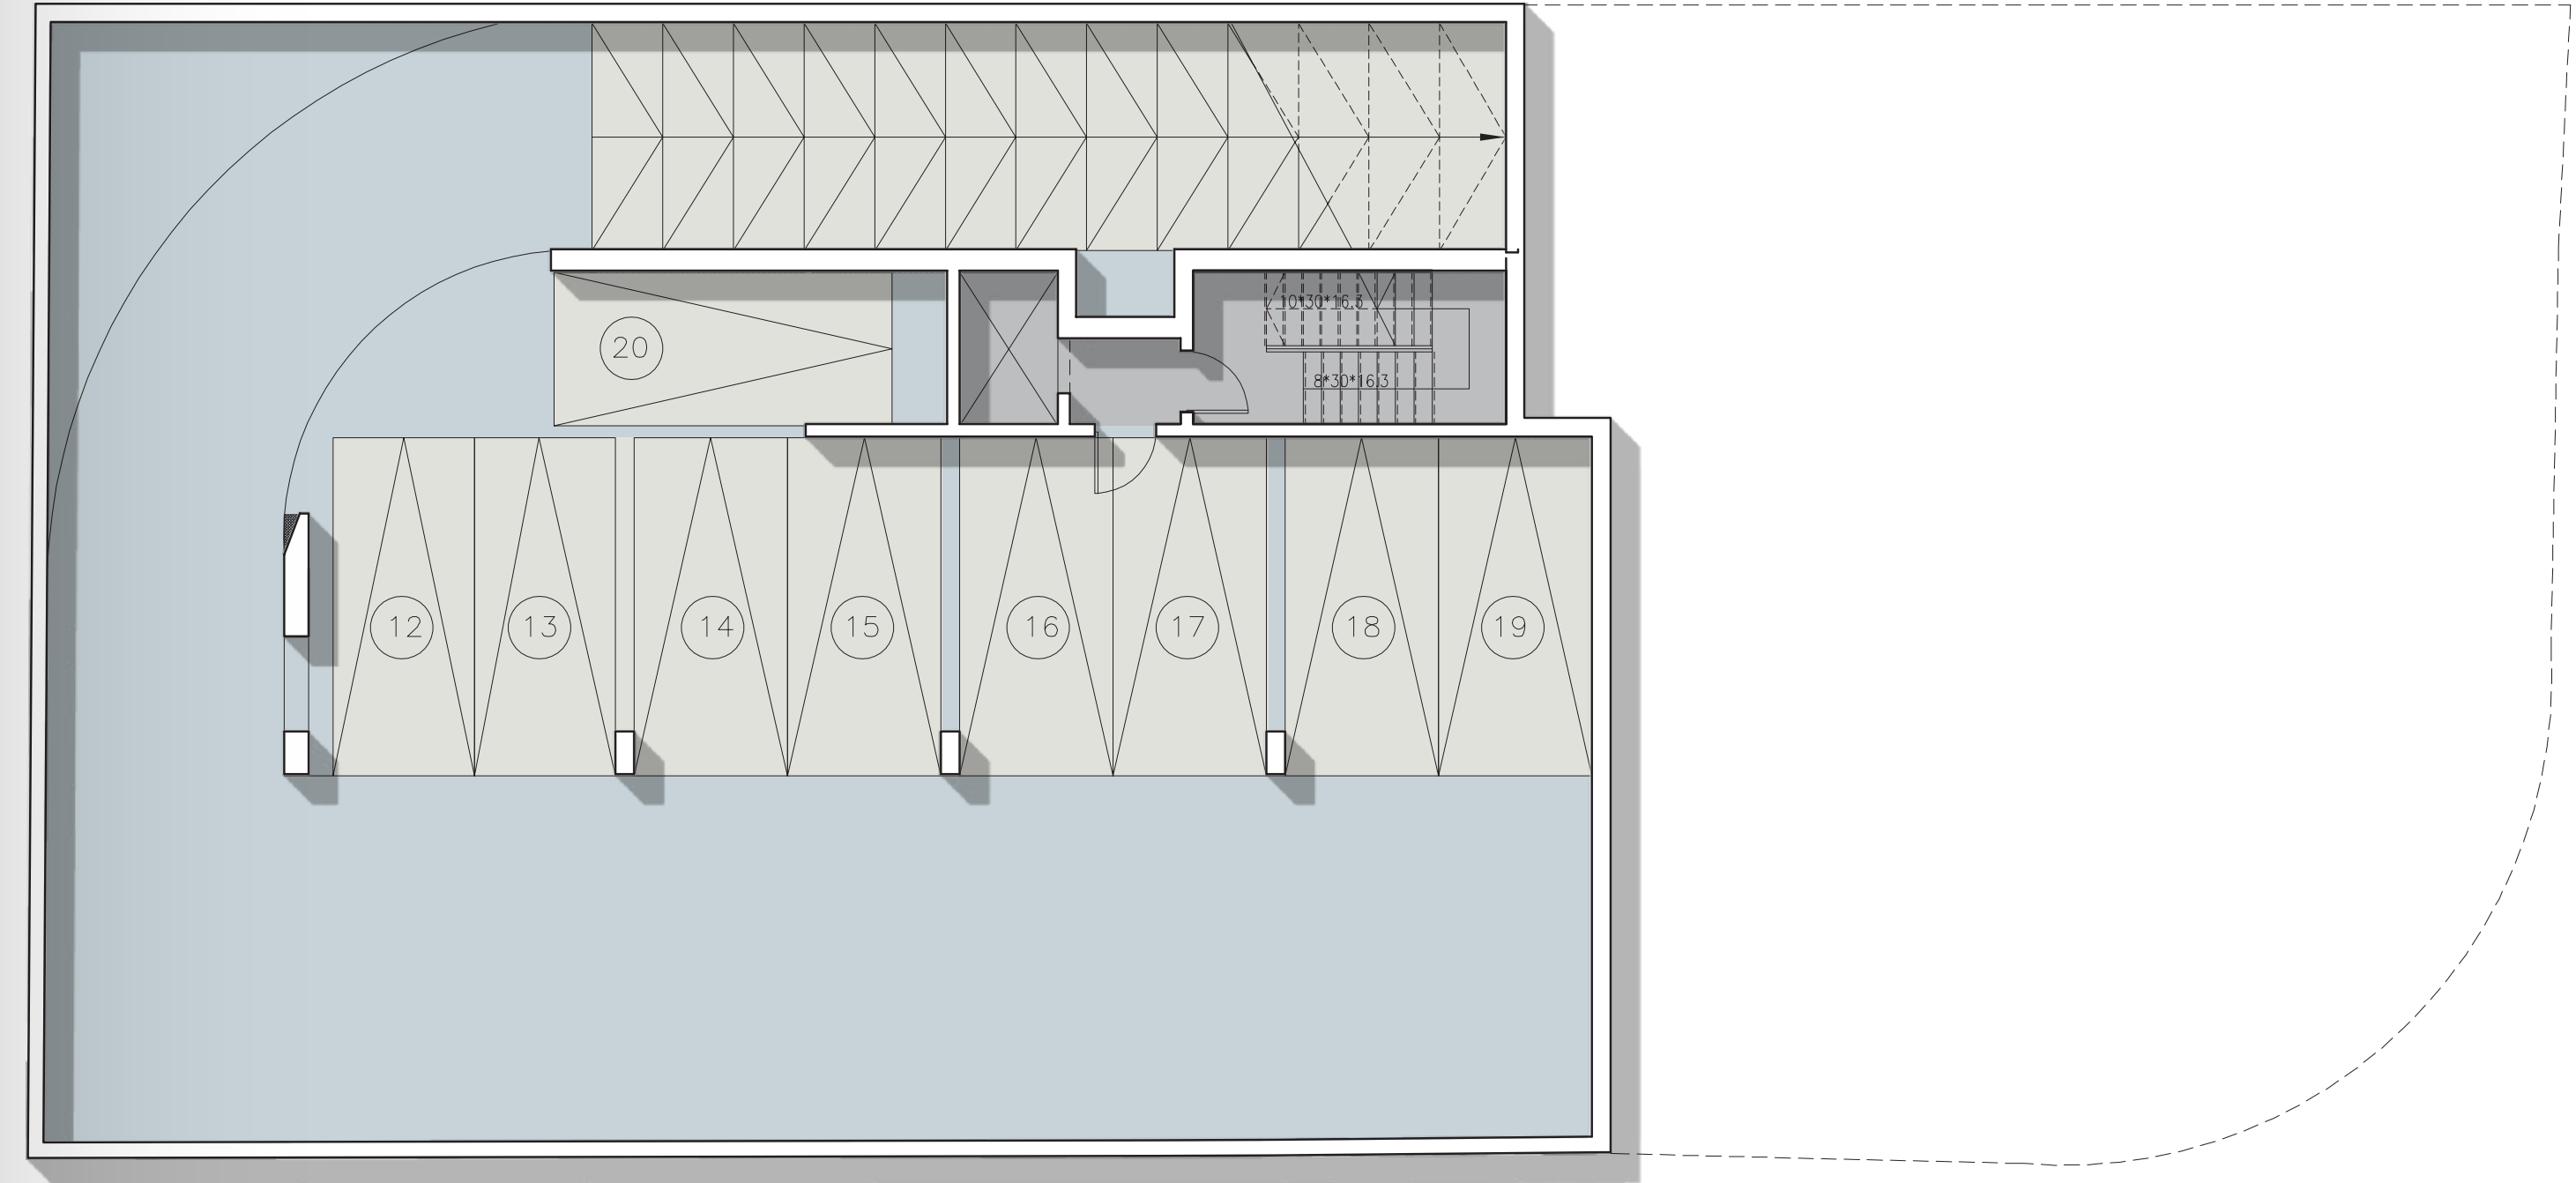

Prestige Development for the Medical Community

Eye-catching contemporary styling and a truly prime location offering our clients the opportunity to base themselves in a landmark development. Sweeping views to the Abdoun Bridge, The Royal Hotel, the Farah hospital, and backing on to the gardens of the British Ambassador's residence, underlining the exceptional location of the project. In the heart of Jabal Amman with excellent transport links, Jabal Amman Clinics proves the perfect setting for our customers and investors in the medical community – from doctors to pharmacies and labs. We are delighted at the response to what we have created, and we trust it will empower all of our clients' practices.
